4	SECT	<b>TON 1.</b> Chapter 75 of the General Statutes is amended by adding a new
5	Article to read:	
6		"Article 8.
7		"Abusive Patent Assertions.
8	" <u>§ 75-136. Title.</u>	
9	This Article s	hall be known and may be cited as the "Abusive Patent Assertions Act."
10	"§ 75-137. Purp	•
11		eneral Assembly finds the following:
12	(1)	North Carolina is home to a growing high-technology, knowledge-based
13		economy. With its top-tier research universities and active technology
14		sector, North Carolina is poised to continue its growth. To continue growing,
15		North Carolina must attract new, small, or mid-sized technology companies.
16		Doing so will help provide jobs for North Carolina's residents and boost
17		North Carolina's economy. North Carolina also is home to companies in
18		retail, manufacturing, and other industries, many of whom are customers of
19		technology companies. Those other businesses are more likely to succeed if
20		not inhibited by abusive and bad-faith demands and litigation.
21	<u>(2)</u>	Patents encourage research, development, and innovation. Patent holders
22		have legitimate rights to enforce their patents.
23	<u>(3)</u>	The General Assembly does not wish to interfere with good-faith patent
24		litigation or the good-faith enforcement of patents. The General Assembly
25		also recognizes that North Carolina is preempted from passing any law that
26		conflicts with federal patent law.
27	<u>(4)</u>	Patent litigation can be technical, complex, and expensive. The expense of
28		patent litigation, which may cost millions of dollars, can be a significant
29		burden on small- and medium-sized companies. North Carolina wishes to
30		help its businesses avoid these costs by encouraging the most efficient
31		resolution of patent infringement claims without conflicting with federal
32		<u>law.</u>
33	<u>(5)</u>	In order for North Carolina companies to be able to respond promptly and
34		efficiently to patent infringement assertions against them, it is necessary that
35		they receive specific information regarding how their product, service, or
36		technology may have infringed the patent at issue. Receiving this

	bly Of North Carolina Session 20
	information at an early stage will facilitate the resolution of claims a
	lessen the burden of potential litigation on North Carolina companies.
<u>(6)</u>	Abusive patent litigation, and especially the assertion of bad-fa
	infringement claims, can harm North Carolina companies. A business t
	receives a letter asserting such claims faces the threat of expensive a
	protracted litigation and may feel that it has no choice but to settle and
	pay a licensing fee even if the claim is meritless. This is especially so
	small- and medium-sized companies and nonprofits that lack the resource
	investigate and defend themselves against infringement claims.
<u>(7)</u>	Not only do bad-faith patent infringement claims impose a signific
	burden on individual North Carolina businesses, they also undermine No
	Carolina's efforts to attract and nurture technology and other compan
	Funds used to avoid the threat of bad-faith litigation are no longer availa
	to invest, produce new products, expand, or hire new workers, there
	harming North Carolina's economy.
<u>(8)</u>	North Carolina has a strong interest in patent matters involving its citiz
	and its businesses, including protecting its citizens and businesses again
	abusive patent assertions and ensuring North Carolina companies are
	subjected to abusive patent assertion by entities acting in bad faith.
<u>(9)</u>	In lawsuits involving abusive patent assertions, an accused infrin
	prevailing on the merits may be awarded costs and, less frequently, for
	These awards do not serve as a deterrent to abusive patent assertion entit
	who have limited liability, as these companies may hold no cash or ot
	assets. North Carolina has a strong interest in making sure that prevail
	North Carolina companies sued by abusive patent assertion entities
	recover what is awarded to them.
<u>(b)</u> <u>The</u>	General Assembly seeks, by this narrowly tailored act, to strike a bala
between (i) the	e interests of efficient and prompt resolution of patent infringement claim
2	North Carolina businesses from abusive and bad-faith assertions of pat
	nd building of North Carolina's economy and (ii) the intentions to resp
	be careful to not interfere with legitimate patent enforcement actions. Noth
	ended to alter current law concerning piercing the corporate veil.
